■ Precautions

1. Please gargle your mouth after each use, because mouth gargling can effectively reduce the occurrence of lowered hoarse voice and oral thrush side effects.
2. If a second dose is to be inhaled, please inhale the second dose at an interval of 1-2 minutes after the completion of first inhalation action.

■ How to clean?

- Clean the inhaler at least once a week. Separate the inhaler (plastic outer cover) and the medication bottle (metal bottle), the inhaler can be wash with water, dry it after washing, avoid placing it at area with overheated temperature (under the sun), and do not air dry with hairdryer. Metal bottle cannot be placed into water.
