■ Precautions

1. Please gargle your mouth after each use, because mouth gargling can effectively reduce the occurrence of lowered hoarse voice and oral thrush side effects.
2. If a second dose is to be inhaled, please inhale the second dose at an interval of 1-2 minutes after completion of the first inhalation. °
3. Due to the minimum amount of powder to be taken, you just need to follow the instructions mentioned previously; this should ensure the medication had been inhaled in.

■ How to know the remaining amount of medication?

- When the first red check appear on the counter window it means that there are 20 doses in remaining, if the whole window is red in color, it means the medication is finished.

■ How to clean?

- Separate the tip and the body of the inhaler, wipe with dry cloth or knock lightly on the table to bring down the remaining powder. Remember! **Do not wash with water.**
