

Medication Use Instruction Sheet

Onbrez® Breezhaler

■ Medication Name

Indacaterol 150 mcg

■ Indication and Mechanism

Used for Chronic Obstructive Pulmonary Disease (COPD). Can relieve wheezing, coughing, and shortness of breath by opening up the airways.

■ Directions

1.

1. Remove cap (Picture 1).
2. Remove mouthpiece.
3. Remove capsule from blister and place in chamber (Picture 2).

4. Close mouthpiece until it clicks (picture 3).

5. Press side piercing buttons in once and release to pierce the capsule, do not shake (Picture 4).

6. Exhale gently and away from the inhaler.

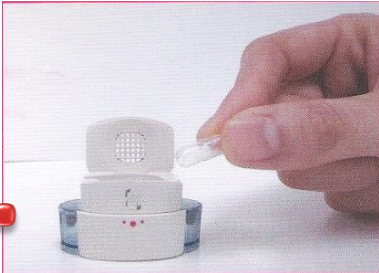

7. Close lips around mouthpiece to form good seal.

8. Breathe in slowly and steadily. The capsule will vibrate as you breathe.

9. Breathe in as long as possible.

10. Hold breath for about 5 seconds, or as long as possible. Remove inhaler from mouth.

5.

6.

11. Breathe out gently and away from inhaler (Picture 5).
12. Open mouthpiece and remove used capsule (Picture 6).
13. If there is still drug in the capsule, repeat all steps starting from step 6.
14. Clean the chamber of the breezhaler.
15. Close mouthpiece and cap.

■ Be careful of...

- Not piercing the capsule
- Piercing the capsule more than once
- Not using a new capsule for each dose
- Not breathing in forcefully enough

■ What if I miss a dose?

- Immediately take a dose within the same day. Do not use more than once a day.

■ Cleaning Instructions

- Clean the inhaler once a week. Wipe the mouthpiece with a clean alcohol pad or tissue.
